Notes for Santa Ana Cemetery:

1. Dates of Survey: June 2006
2. Datum: NAD83. Latitude and Longitude coordinates are in Degrees-Minutes-Seconds (DMS) format, +/- 1.00 feet of the grave location. Because of the high degree of accuracy of these coordinates, your handheld GPS receiver may not accept the full coordinate value listed here. Round up or down the "seconds" value to store the coordinates. The aerial photomaps I compiled make it pretty simple that you can really just walk to these graves by using the location maps that were created.
3. Jesse D. Bowley partial remains are currently in an unmarked grave: Los Angeles Times newspaper (March 19, 1896, page 13) reported Bowley's partial remains were found when workers were digging the grave for Civil War veteran Oliver F. Oberr. Bowley was buried here first and then his remains were later dug up and sent to San Francisco per the family's request. His found partial remains were buried at the bottom end of the grave that he now shares with Oliver F. Oberr. A copy of the newspaper article is included in this DVD under "Miscellaneous Articles" for Santa Ana Cemetery.
4. Jonathan Wallace was buried at Anaheim Cemetery in 1890. Later his body was removed and interred at Santa Ana Cemetery.
5. James Gordon was first interned at Santa Ana Cemetery on December 11, 1909 and later his body was removed to Fairhaven Memorial Park and Mortuary.
6. St. John's Lutheran Cemetery is a smaller cemetery that is adjacent to Fairhaven Memorial Park and Santa Ana Cemetery. I have included the two Civil War veterans into this survey that are buried adjacent to Santa Ana Cemetery in St. John's Lutheran Cemetery. The other two Civil War veterans are included in the Fairhaven Memorial Park and Mortuary survey.
7. Some of these veterans have multiple grave markers. I have included photographs of the different grave markers located in the photograph section, but the coordinate values were only taken to one of the markers. The other grave marker was always close by.

Notes for Santa Ana Cemetery continued:

8. Gene Platt (“Geno”) restored 203 Civil War Monuments from 1999 until 2002 before being told to stop this project. This controversial issue has been debated to “strip off” the sealant he used or leave the Civil War Monuments alone and let “Mother Nature” take care of them. Thus the reason why the Civil War Monuments have different appearances:
 - Original Monument not restored by Geno
 - Fully restored by Geno
 - Partially restored by Geno
 - Totally or partially stripped of the sealant

The Civil War Monuments with sealant will eventually be stripped or the natural elements will wear off the sealant.

9. I like to knowledge and express my personal appreciation to the following persons and organizations that helped me complete this project.
 - Gordon Bricken: Sons of Confederate Veterans Captain James Iredell Waddell Camp #1770 and the person who maintains the Orange County Civil War Veteran graves list.
 - Brothers from the Sons of Union Veterans of the Civil War Generals Sedgwick-Granger Camp #17: Floyd Farrar; Don Hoffer; Richard Raver.
 - Roger Shortall: local resident.
 - The Orange County Cemetery District and Santa Ana Cemetery Staff.
